

ESPEC AMR-U *Conductor Resistance Evaluation System*

- continuous measurement of resistance change
- wide range measurement of low ohm resistance
- offer multi-channel evaluations
- DC or AC resistance measurement
- interaction with the ESPEC environmental test chambers
- failure recognition using absolute value or change rate (%)

Model	AMR-U
Measurement Channel	Max. 280
Resistance Measurement	2×10^{-3} to 1×10^6
External Dimension (WxHxD)	530 x 1750 x 940 mm
