

ESPEC Temperature Chamber (Oven)

- good for high temperature tests & heat treatment
- full product range to meet your requirement
- high precision temperature control & advanced PID operation
- excellent Insulation resulted in low power consumption
- multiple safety mechanism
- wide range of optional accessories

Model	Temperature	Inside Capacity
PH(H), PV(H)	Ambient +20 to 350 °C	91L to 1000L
SSPH (Ultra High Temperature)	+100 to 700 °C	91L, 216L
STPH (Ultra High Temperature)	Ambient +20 to 500 °C	91L, 216L
SPH(H) (with Explosion Vent)	Ambient +20 to 300 °C	91L to 1000L
IPH(H) (Anaerobic)	Ambient +20 to 300 °C	216L
GPH(H) (with Rotating Rack)	Ambient +20 to 300 °C	91L, 216L
